HANNON DIGITAL

Consult - Build - Train - Manage

## Introduction to Portrait Photography

At Hannon Digital we offer professional photography services for individuals and growing businesses. We provide top quality photographs for use on social media and networking sites to help build your public relations; inviting people to see the people behind the company. Having professional headshots and corporate images makes you and your business more approachable and appealing to customers, suppliers and stakeholders.

## Portrait Photography

What does your current profile photo really say about you? Does it do you justice? Make your social media profile stand out with a professional headshot (or varied headshots and location shots) to use across a variety of networking sites such as LinkedIn, Facebook and Twitter; and use it on your company website and in your brochures. Choosing to go professional for your images can play a huge effect on how people view your profile. Having professional well-presented photographs can make your business stand out from the rest. Head-shots and business profiles don't always have to be plain and simple; photos can be taken out on location or even at the office. It all depends upon the image that you want to portray – and we will assist you with ideas.

## Event Photography

We specialise in PR Events, Parties, Awards Ceremonies and Conferences. Offering professional services for use at your upcoming events, we can cover most indoor and outdoor venues with state of the art digital cameras, editing equipment and printing for use online or sharing on social networks.

## Office/Facilities

Get creative - do you work in an iconic building or are you proud of your workspace? Then; have your office interior or exterior captured for posterity by our professional team of photographers.

The Hannon Digital photography unit produces corporate photographs for websites, press, PR or personal use.

Our un-intrusive photographers will give you results that make your business look more approachable and professional.

## Charity

Non-profit professional photographs are available for charity events. Our photographers will donate time and talent to help organisations with professional press, PR or web images. No event is too big or small - our photographers are dedicated and willing to work for you whenever possible.

## Social Media/ Backgrounds

With social media and digital networking now being on the front line of any business it is important to make your media space look professional. Drive traffic to your social media pages and your website with feature background and header images; these images are the first thing you see on a business profile so it is important that they are clear, high quality and professional. Improve your brand presentation and grab media attention. Whether you are a big business or a startup, our photographers are on call to create original, sharp digital images, edited ready for commercial use across all social media.

## Team/Group Photos

Whether your team is big or small we will make you look approachable, and the sort of group that people will want to do business with - or work for. Effectively exhibit your teamwork through photography, because it is important to clients and prospects to see how your company works and is developing as a unit.

A top-down view of various stationery items arranged on a light grey surface. On the left is a wooden clipboard with a silver clip at the top and a white sheet of paper. Below it is a brown envelope with a red wax seal. To the right of the clipboard is a white tag with a string. Further right are two small white envelopes, a larger brown envelope with a white label, a brown envelope with a twine bow, a white envelope with a twine bow, and a rolled-up document in brown corrugated paper with a white label and a twine bow. A wooden stamp handle is also visible.

## Product Shots

Product and service images are essential to show people what your business has to offer. Sharp, well lit and posed, high quality shots of your product (or of your service being provided in the field) are central to how you present your business; and they set the tone for how professional you aim to look. Have your product offerings stand out from the rest by commissioning a high-quality professional product photo shoot, edited by our professional team for use across all media (online and offline).

## Short Film Interviews (Head shots)

Get ahead of the rest; and have your profile really say what you want it to. Short but professional film interviews are a great way of introducing your business to the public. We offer short headshot - based film interviews at high quality resolution: ideal for use on any social media and networking sites to help grow your business. And consider having us interview key clients on short films, saying what you do for them and how satisfied they are with your service. It makes great YouTube and website viewing and it really impresses potential new customers.

## Editing/Touch-ups/ Resolution/Uploads

After any shoot we will re-size, edit and upload your photographs ready for commercial use across any site or network, regardless of their size, shape, resolution or format requirements.

## Prices

Half Day Rate - £340

Full Day Rate - £560
